

Update on the Pavilion Project – 20th October

The initial designs for the pavilion were circulated within the village on 4th October using Kimpton newsletter and website. Feedback from residents was considered by the working party at the meeting held on 11th October and an updated design report produced by Fiona Shepherd.

[Updated Design Report](#)

On the recommendation of Colin Heal, KPC has appointed Dafydd Powell, Drayton Accounting and Construction Services Limited as the Cost Consultant for the pre-construction phase (Pre Tender and Tender Works) of the contract. He has been instructed to produce three cost plans:

1. Refurbishment of the changing rooms, lobby and WCs, strip out the remainder of the building, install M&E services
2. Ditto, including 'shell and core' (partitions, doors, rooflights, wc, M&E, etc.) to the remainder of the building
3. Ditto, including full fit-out of the remainder of the building

These cost plans should be available by the first week in November for discussion at the next Project Working Party meeting being held on 8th November.
