

Kimpton Bench Working Party
April 2024

Over two weeks, 3 lorry loads, 54 tonnes in total of road scrapings were expertly delivered and finely spread by the BWP Army over Parkfield Rec approach Road.

The May Festival behemoth approaches and the Church is converted to allow for the Art Show. Large panels and tables delivered by Ben Coles from his storage are erected and secured around the church. Much of the Church contents are moved to accommodate.

An outside tap fitted to the Dacre Rooms and a radiator was fiddled with.

3 school planters built and filled with soil.

Many smaller jobs completed, but generally larger jobs and bad weather affected production this month.
